Step-by-Step: Making Circle Borders with the Circle Pro 24 Cutter

1. Use included guide to determine the number and size of glass rectangles needed for your border.
2. Set the cutter head to the outside diameter of your border.

3. Position glass and score the outside diameter. Without moving the glass, reposition the cutter head and score the inside diameter of your border. Run scores and break glass. Repeat for all pieces.

4. Position pieces on angle guide and mark ends. Score and break. Position all pieces together to complete your border.

Top Tools Strip Cutter

This top-of-the-line, high quality strip cutter makes it easy to achieve repetitive, uniform strips fast. Cuts glass up to 36" in length with ease. For longer strips, add on the optional 52" replacement rods, they make cutting full sheets a breeze! The use of two tracks, a pressure sensitive adjustable cutting head, sealed ball bearings on the tracking head, and a self adhering ruler makes this tool a must have!

True Colors Light Box

A good light box is a necessity for every glass artist. Use it for tracing patterns, marking patterns on glass, or English Method glass cutting as well as comparing glass samples to pick colors. The 2 color-corrected lights show the true colors of your glass (unlike standard fluorescent bulbs). Large 16" x 24" plexiglass surface. 1 year manufacturer warranty (bulbs excluded).

"One of the best things I have purchased. It makes it so much easier to decide which glass I want to use for a project. It really helps with the layout on the project too." — Jim F., Cleveland, OH

NEW Padestal Tablet Support

The molded, minimalistic design has a small footprint and is made from rugged, lightweight material. The bumper establishes a firm grip on any surface. Made in the U.S.A.

The Ideal Torch for Creating Glaskolben™

Hot Head Torch Head

Produces a clean, hot flame
with inexpensive MAPP gas or
propane (not included), available
at most hardware stores. The design
provides more oxygen to the burning gas,
which minimizes any darkening of light colored
glass. Dial at base adjusts the flow of fuel.
